Risk Assessment

	Cause	Event	Effect	Risk	Likelihood
1	Data needs to secure	Outdated software	The company will lose the trust of the customers and revenue loss.	High	High

Introduction

- Agile Development
- Database
- Programming
- Testing

Agile Development

Requirements

User Requirements

- CRUD Functions

System Requirements

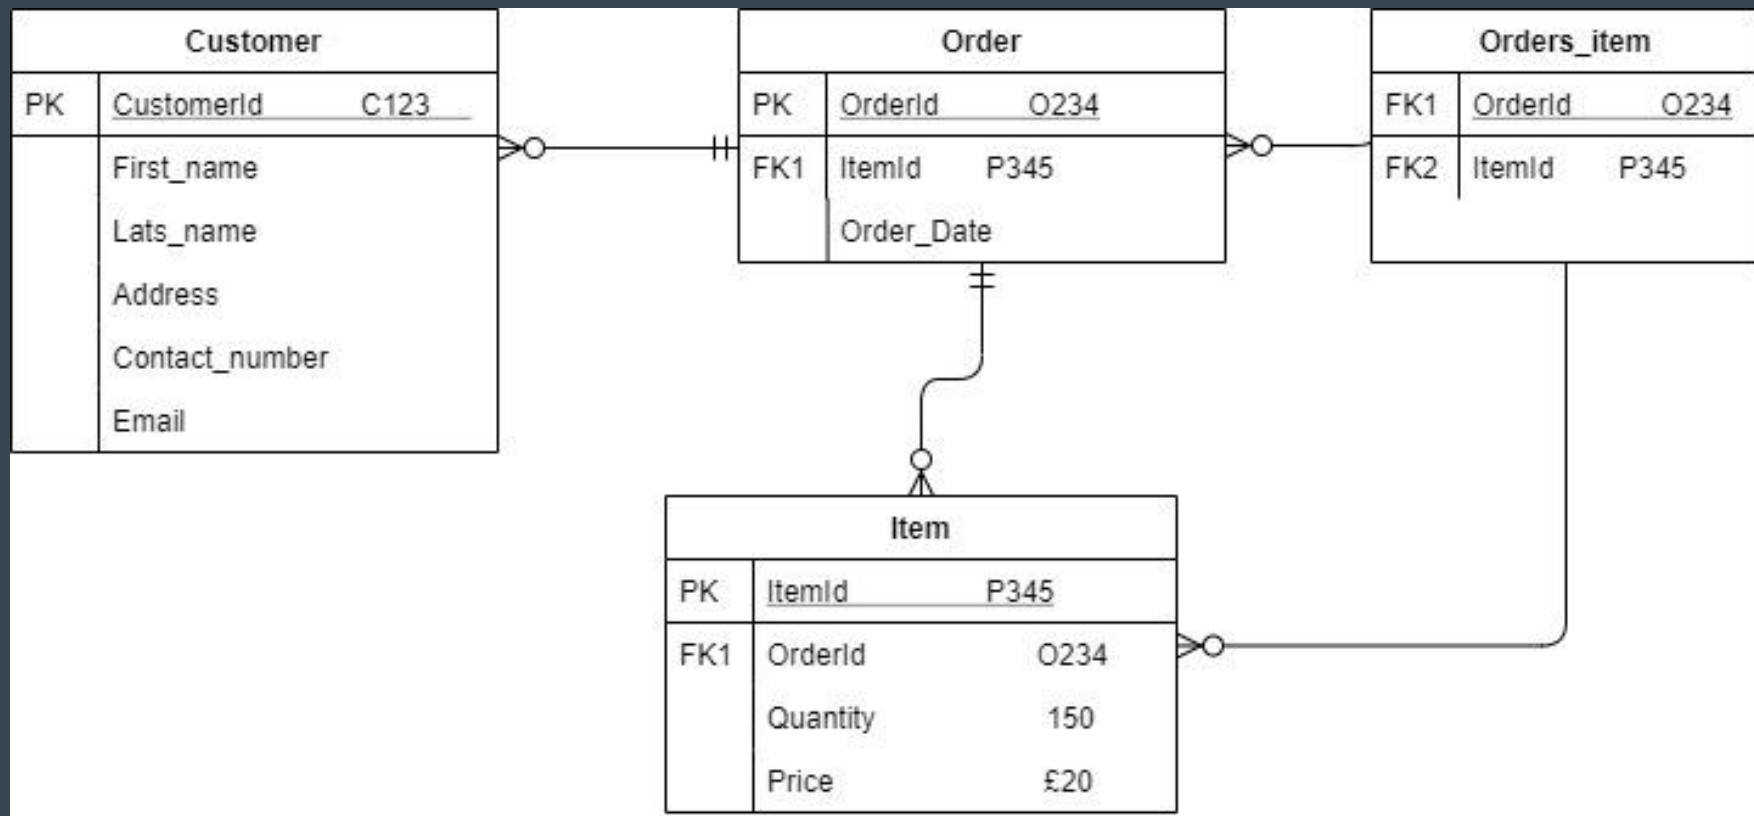

- Database Connection
- Allow User to do CRUD Functions

Database

- ❖ MYSQL

- CRUD Functions

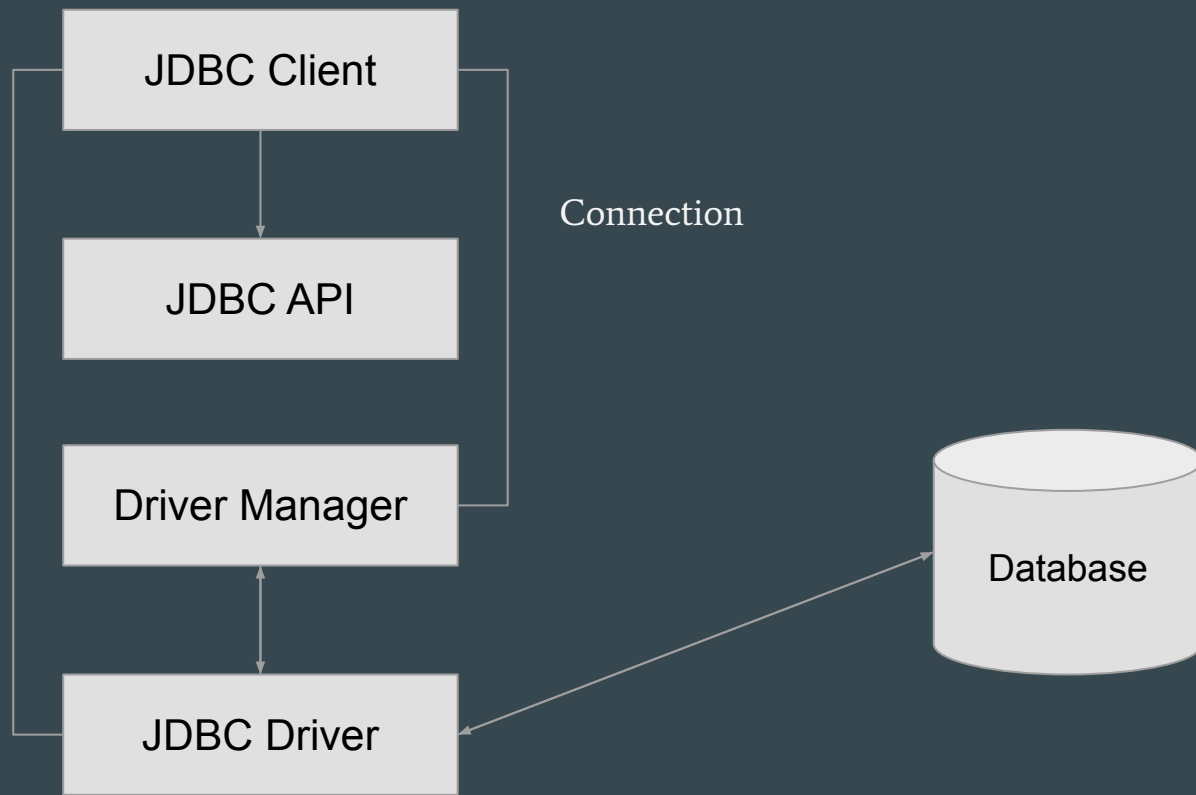

ERD

Programming

- ❖ JDBC (Java Application Structure To communicate with Database)
- ❖ Types of Drivers
 - Bridge Driver (Type 2)
 - Network Protocol Driver (Type 3)
 - Java Type 4

Database Connection

Application

...
